Dear Doctor,

Re: *Patient Name and address*

We are writing to ask if it would be possible for the above patient to have blood samples taken at your clinic to see if they could be a suitable stem cell donor for their relative who is a patient of ours. Would it be possible for the blood samples to be taken and sent to a local hospital laboratory that supports HLA tissue typing?

We have sent an information booklet and letter to the patient so that they are aware of what is involved before the sample is taken.

We would be grateful if the tissue typing laboratory could email a copy of the report to:

Maggie Sutton, Transplant Immunologist: transplantimmunology.oxford@nhs.net

Please do not hesitate to contact the Administrator for the BMT Nurses: 0044 1865 223486 if you have any queries.

Yours sincerely

Oxford Blood & Marrow Transplant Programme
